1. PURPOSE

The purpose of this document is to provide surety to graduates who are part of cohorts within the valid timeframes as clearly recorded for each of the degree programmes listed for the different Higher Education Institutions (HEIs), that they have satisfied the **educational requirement** toward registration as Professional Engineers with the Engineering Council of South Africa.

2. NOTES

- i. Accreditation means the formal ECSA recognition awarded to an Engineering Programme offered by a registered HEI through a rigorous cyclical quality assurance procedure that ensures it meets the criteria laid down for the type of programme.
- ii. Accreditation criteria are statements of requirements that must be satisfied by a programme to receive accreditation.
- iii. ECSA conducts three four (4) types of Accreditations through a rigorous peer-review and policy-directed process:
 - **REGULAR ACCREDITATION:** An accreditation and institutional visit in alignment with the planned/normal 5-year accreditation cycle for an accredited engineering programme.
 - **PROVISIONAL ACCREDITATION:** an accreditation and institutional visit for a new engineering programme at the mid-point of its implementation after the first cohort of students in the programme has completed 50% of the credits towards the completion of the programme. ECSA recognizes graduates between the year of provisional accreditation and the decision of the first regular accreditation visit.
 - **INTERIM ACCREDITATION:** Accreditation at a time within the regular 5-year accreditation cycle as required by the ECSA Education Committee due to the particular outcomes of a previous accreditation visit.
 - **FINAL ACCREDITATION:** Accreditation of a programme that was given notification of termination of accreditation by the Education Committee after the previous interim accreditation.
- iv. Validity dates for accreditation apply to the year in which the student completes the programme, that is, the last year in which the student is registered with the HEI, after which graduation follows. Where a programme is being phased out or is discontinued the accreditation period is extended by no more than 24 months to allow for a teach-out phase for students in the programme.
- v. In the case of the Afrikaans language universities, the university's name, degree designation and branch of the degree are stated in Afrikaans with the English equivalent in square

CONTROLLED DISCLOSURE

Date:	Date:		

brackets. The abbreviation is not translated.

- vi. The accredited degree fulfils only the educational requirement as the first step towards registration as Professional Engineer: further experiential requirements exist.
- vii. **Washington Accord Recognition:** Engineering programmes accredited by ECSA and are recognized as meeting the initial academic requirements for Professional Engineers in South Africa. International recognition of these programmes is provided through the Washington Accord, which was signed in 1989. Signatories to the Washington Accord have undertaken to make every reasonable effort to ensure that the bodies responsible for registering or licensing professional engineers to practice in its country or territory mutually recognize the substantial academic equivalence of engineering academic programmes accredited by other Accord signatories. ECSA became a signatory to the Washington Accord in 1999. **Other signatories are under no formal obligation to recognize the graduates of accredited programmes prior to 1999.** Individual Accord signatories recognize accredited programmes gained prior to 1999 at their own discretion.
- viii. Further details about the Washington Accord and details of all current signatories with links to all accreditation listing information can be found at: www.ieagreements.org
- ix. **List A** in section 3 includes the degree programmes accredited as a result of an accreditation visit to the HEI as per the five-year cycle.
- x. **List B** in section 4 includes degree programmes accredited as a result of an accreditation visit after institutional mergers as required by the DHET, which resulted in a name change of the institution.
- xi. **List C** in section 5 includes degree programmes of South African universities recognized prior to the commencement of formal ECSA accreditation visits.
- xii. The year of the next regular accreditation visit is recorded against programmes that are currently offered.

3. ACCREDITED DEGREES MEETING THE EDUCATIONAL REQUIREMENTS TOWARD REGISTRATION AS A PROFESSIONAL ENGINEER AS RESULT OF AN ACCREDITATION VISIT.

3.1 University of Cape Town

Qualification: Bachelor of Science in Engineering

Abbreviation: BSc (Eng)

Qualification and Discipline	Duration	Accreditation Period		Accreditation Visit Type		
		From	To	Interim	Final	Regular
BSc(Eng) (Chemical Engineering)	4	1985	2026			x
BSc (Eng) (Civil Engineering)	4	1985	2026			x
BSc (Eng) (Electrical Engineering)	4	1993	2026			x
BSc (Eng) (Mechanical Engineering)	4	1985	2026			x
BSc (Eng) (Mechatronic Engineering)	4	1997	2026			x
BSc (Eng) (Mechanical and Mechatronic)	4	1991	2026			x
BSc (Eng) (Electrical and Computer Engineering)	4	2001	2026			x

CONTROLLED DISCLOSURE

3.2 University of KwaZulu-Natal

Note: The University of KwaZulu-Natal was founded in 2004 after the merger of the University of Natal and the University of Durban-Westville.

Qualification: Bachelor of Science in Engineering

Abbreviation: BSc (Eng)

Note: Programmes followed by Graduates of the years 2004 and 2005 of the former University of Durban Westville are identified by the addition of “Westville Campus”.

Qualification and Branch	Duration Year	Accreditation Period		Accreditation Visit Type		
		From	To	Interim	Final	Regular
BSc (Eng) (Electrical)	4	2004	2029			x
BSc (Eng) (Agricultural)	4	2004	2029			x
BSc (Eng) (Chemical)	4	2004	2029			x
BSc (Eng) (Electronic)	4	2004	2029			x
BSc (Eng) (Civil)	4	2004	2029			x
BSc (Eng) (Mechanical)	4	2004	2029			x
BSc (Eng) (Computer Engineering)	4	2004	2029			x

CONTROLLED DISCLOSURE

6. DEGREE PROGRAMMES THAT HAVE BEEN DISCONTINUED

6.1. University of Cape Town

Qualification: Bachelor of Science in Engineering

Abbreviation: BSc (Eng)

Qualification and Discipline	Duration (years)	Accreditation period		Accreditation visit type		
		From	To	Interim	Final	Regular
BSc (Eng) (Electrical and Electronic)	4	1985	2000			Discont.
BSc (Eng) (Electrical)	4	2001	2005			Discont.
BSc (Eng) (Materials)	4	1985	2005			Discont.
BSc (Eng) (Electro-Mechanical)	4	1991	2021			Discont.

6.2. University of KwaZulu-Natal

Qualification: Bachelor of Science in Engineering

Abbreviation: BSc (Eng)

Note:

- Programmes followed by Graduates of the years 2004 and 2005 of the former

CONTROLLED DISCLOSURE

Document No.: E-20-PE	Revision No.: 33	Effective Date: 19/11/2024	 E C S A <small>ENGINEERING COUNCIL OF SOUTH AFRICA</small>
Subject: University Degrees Accredited as meeting the Educational Requirement for Registration as a Professional Engineer			
Compiled by: Manager	Approved by: Executive SS	Next Review Date: After the next approval meeting	Page 23 of 29
Date:	Date:		

University of Durban Westville are identified by the addition of “Westville Campus”.

- The University of KwaZulu-Natal was founded in 2004 after the merger of the University of Natal and the University of Durban-Westville.

Qualification and Discipline	Duration (years)	Accreditation period		Accreditation visit type		
		From	To	Interim	Final	Regular
BSc (Eng) (Electrical) Westville Campus	4	2004	2005			Discont.
BSc (Eng) (Mechanical) Westville Campus	4	2004	2005			Discont.
BSc (Eng) (Chemical) Westville Campus	4	2004	2005			Discont.

6.3. North-West University

Qualification: Baccalaureus in Ingenieurswese / Bachelor of Engineering

Abbreviation: BIng / BEng

Note: North-West University was formed in 2004 after the merger of the Potchefstroom University for Christian Higher Education and the University of the Northwest, the latter not having offered any BEng/BSc (Eng) programmes.

Qualification and Discipline	Duration Year	Accreditation Period		Accreditation Visit Type		
		From	To	Interim	Final	Regular
BEng (Mechanical with specialization in Materials)	4	2004	2006			Discont.
