## 1. POLICY STATEMENT

ECSA develops and operates a quality assurance system that leads to the Accreditation of various engineering educational programmes. The standards, criteria, policies and procedures that define the Accreditation system are presented in this set of documents.

The Accreditation system assures the public, students, employers, funders and other stakeholders that first, the programme fulfils its key purpose of providing the graduate with the

educational foundation for engineering in a stated role at the professional level; and second, the teaching, learning and assessment processes are defined and effective.

## 2. PURPOSE OF THIS DOCUMENT
