Document No.: E-20-PE	Revision No.: 24	Effective Date: 31/05/2019	
Subject: University Degrees Accredited as meeting the Educational Requirement for Registration as a Professional Engineer			
Compiler: C Ncuthushe	Approving Officer: J Cato	Next Review Date: After the next approval meeting	Page 2 of 24

1. Purpose

The graduates of the degree programmes listed here belonging to those graduating classes of the years shown against each programme have satisfied the educational requirement toward registration as a Professional Engineer with the Engineering Council of South Africa.

2. Notes

1. Accreditation is formal recognition awarded to an education or training programme through a quality assurance procedure that it meets criteria laid down for the type of programme
2. Accreditation criteria are statements of requirements that must be satisfied by a programme in order to receive accreditation.
3. Accreditation visit has three types: Interim visit which refers to a partial accreditation that is awarded until all requirements are met for full accreditation; Final visit refers to a follow-up visit after a partial accreditation to check if outstanding accreditation criteria is met or not and may result to withdrawal of accreditation if the criteria is still no met; and Regular visit refers to the routine visit after full accreditation.
4. Validity dates for accreditation apply to the year in which the student completes the programme that is the last year in which the student was registered at the university.
5. In the case of the Afrikaans language universities, the university's name, degree designation and branch of the degree are stated in Afrikaans with the English equivalent in square brackets. The abbreviation is not translated.
6. The accredited degree fulfils only the educational requirement toward registration as Professional Engineer: further experiential requirements exist.
7. **List A** in section 3 contains the degree programmes, which have been accredited as a result of an inspection visit to the university on a five-year cycle.
8. **List B** in section 4 contains those degree programmes which were accredited through inspection visit and as a result of the merger, the university name changed.
9. **List C** in section 5 contains those degree programmes of South Africa universities recognized prior to the commencement of formal accreditation visits.
10. The year of the next regular evaluation visit (next general review) is shown against programmes that are currently offered.

CONTROLLED DISCLOSURE

When downloaded for the ECSA Document Management System, this document is uncontrolled and the responsibility rest with the user to ensure that it is in line with the authorized version on the database. If the "original" stamp in red does not appear on each page, this document is uncontrolled.

8. Provisional Accreditation may be granted to a new degree programme, which has been visited when students have completed half the credits for the degree. A regular accreditation visit is required in the year after the first graduates are produced. ECSA recognises graduates between the year of provisional accreditation and the decision of the first regular accreditation.

Lists A, B and C for the various universities are found in the Sections shown.

2.1 Washington Accord Recognition

Engineering programmes listed below have been accredited by ECSA and are recognised as meeting the initial academic requirements for Professional Engineer in South Africa. International recognition of these programmes is provided through the Washington Accord, which was signed in 1989.

Signatories to the Washington Accord have undertaken to make every reasonable effort to ensure that the bodies responsible for registering or licensing engineering technologists to practise in its country or territory mutually recognise the substantial academic equivalence of engineering academic

programmes accredited by other Accord signatories.

ECSA became a signatory to the Washington Accord in 1999. Other signatories are under no formal obligation to recognise the graduates of accredited programmes prior to 1999. Individual Accord signatories recognise accredited programmes gained prior to 1999 at their own discretion. Further details about the Washington Accord and details of all current signatories with links to all accreditation listing information can be found at: www.ieagrements.org
