Dear Valued Stakeholders,

## RE-INVITATION TO NOMINATE ECSA WOMEN IN ENGINEERING PROGRAMME REPRESENTATIVES

We are delighted to announce an exciting opportunity to contribute to the future of women in the engineering profession in South Africa. At the Voluntary Association Presidents Forum held on 26 June 2024, the Engineering Council of South Africa (ECSA) presented and proposed the establishment of the ECSA Women in Engineering Programme.

The Women in Engineering (WIE) Programme is being developed and will be implemented in partnership with ECSA's recognized VA's and Employer Bodies. This initiative is designed to promote diversity for women in the engineering fraternity, creating a platform that focuses on issues that women face in the sector, as well as providing support for mentorships, and initiatives implemented by ECSA, VA's and Employer Bodies. The Programme also aims to promote ECSA registration to young female engineering practitioners.

We invite your esteemed association/organisation to nominate individuals for consideration as ECSA Women in Engineering Programme Representatives. The selected Representatives will contribute significantly to promoting ECSA's objectives for women in the engineering fraternity and facilitating engagements with industry role players. The Representatives will serve under the programme for a period of 2 years (24 months).

### To be eligible, a nominee for the ECSA Women in Engineering Programme must meet the below criteria:

1. Female engineering practitioners between the ages of 30 – 45.
2. Registered with ECSA.
3. Sourced primarily from VA's and/or major engineering employers.
4. Diverse and representative group: Provinces, Engineering disciplines and Race.
5. Demonstrated Leadership potential and/or recognition.
6. Activities carried out on a voluntary basis.
7. Demonstrates a willingness to engage with and promote ECSA's mandate and mission.
