Dear Valued Stakeholder,

Re: Enforcement of Identification of Engineering Work and Compliance Plans

The Engineering Council of South Africa (ECOSA) seeks to provide clarity on the enforcement date of the Identification of Engineering Work.

The Identification of Engineering Work (IDoEW), which outlines the engineering tasks to be carried out by individuals registered in the ECOSA registration categories and distinguishes the nature of work to be performed from one registration category to another and from one discipline to the other, was gazetted by the Council in March 2021.

Following the publication of the gazette, the Council commenced with consultations with stakeholders to inform and prepare them to comply with the requirements.

The Council wishes to clarify that the official enforcement date of the IDoEW regulations is not April 1, 2025, but rather that the engineering fraternity is asked to submit compliance plans by March 31, 2025. The plans should contain procedures for ensuring that all engineering work is appropriately identified and ascribed to registered persons.

To ensure a smooth transition, the Council will review the fraternity's compliance with the submitted plans from 01 April 2025. During this time, ECOSA will also launch sector engagements to educate stakeholders about the enforcement framework and its implementation.

The fraternity is requested to submit its compliance plans before March 31, 2025 to rpsdservices@ecsa.co.za

Queries on the Identification of Engineering Work to be directed to the following persons:

Mr Mbulelo Hlalukana: mbulelo@ecsa.co.za

Ms Nondumiso Thusi: Nondumiso@ecsa.co.za

Kind Regards,

Dr Bridget Ssamula Pr. Eng
Chief Executive Officer
